

**STYLE # 1513**

**DISCS MIRROR-\$1,538.00**

43"L x 2"D x 43"H

The Discs Mirror takes over 20 large discs of iron to make each mirror and each disc must undergo an intensive process in order to get their interesting oxidized look. Discs are hand-cut, forming the raw edges, then given an oxidized finish with a chemical-and-fire technique. This free-hand artistry comes together to frame an industrial, rich mirror.
