BLUE TABLE LAMP-\$695.00

18"L x 12"D x 21.75"H

In the tried-and-true tradition of radiant mercury glass, our Blue Table Lamp shines like few materials can. The rotund body made of luminous blue plated glass effervesces when light wafts from under the off-white shantung shade, held in place by hardware and a round finial in a polished nickel finish. This is one of our products that illustrates the skill of our vendors glassblowers and finishers.
